

SUGGESTED INSTALLATION OF ACTION UNITS IN MODEL SLIPWAY "TAMAR" using 12v motors and power supply.

The Graupner Speed 700BB 12v motors shown have been proved to be more useful with larger (scale) props e.g. 45mm 4-blade brass, as well as the 12v supply being ideal for the P101 amplifier. P104 Sound Selector Switch is optional; see details on ACTION website.
